Autumn Harvest of Memories

Join us for our **October Memory Café**, a welcoming, dementia-friendly social experience for individuals living with memory changes and the family members, friends, and care partners who support them.

Memory Café is more than a support group—it's a chance to enjoy the moment together, connect with others, and create new memories.

Join us for a warm and welcoming fall gathering designed for individuals living with memory changes and their care partners. **Autumn Harvest of Memories** will use the sights, scents, sounds, and traditions of fall to inspire connection and reminiscence through seasonal sensory experiences, storytelling, music, and a fun pumpkin-themed activity. Together, we'll explore the question, "What did fall feel and smell like when you were growing up?" Coffee, tea, and donuts will be provided.

***Come celebrate the season, share a story,
and make a new memory together.***
